

INTELLIGENT FINGERPRINT **SMART LOCK** WITH CAPACITIVE SENSOR

Smart
Voice Prompts

Fingerprint
Recognition

Mechanical Key,
Card, Password

Aluminum
Alloy Material

USB Emergency
Power Supply

Two
Tongues

S-FDL600

Features:

- Color: Black + Matte Gray
- Dimensions:
Front panel: 71.7mm*59.2mm*368.7mm
Rear panel: 71.7mm*58mm*368.7mm
- Material:
Front panel: Sheet metal stamping + film injection molding
Back panel: sheet metal stamping + ABS injection molding
- Process: Powder spraying
- Door opening method: Password + Fingerprint + MF card + Key
- Door opening options: Left opening + right opening optional
- Door thickness: 40-80mm

Specification

Sensor	Press-type capacitive fingerprint sensor
Resolution ratio	508DPI
False acceptance rate	≤0.0001%
False rejection rate	<0.01%
Anti-lock function	Mechanical anti-lock
Emergency mechanical lock	Support
Mechanical key anti-theft level	Can meet C level
Corrosion resistance	Level 4
Applicable ambient temperature	-25~55°C
Static Power Consumption	≤85uA
Dynamic Power Consumption	300mA
Language Menu Management	English/Chinese/9 languages
Administrator Authentication	Fingerprint/Password
Adding Fingerprints	Supported
Deleting Fingerprints	Supported
Number of Fingerprint Users	100pcs
Total Number of Password Users	100pcs
Total Number of Card Users	100pcs
Door Opening Record Query	Supported
Information Storage	5 Years
Power Supply	Four AA Batteries
Low Voltage Alarm	4.8 ± 0.2V
External Emergency Power Supply	TYPE-C
Networking	Optional: (Wi-Fi)
Compatible lock body types	6068 (24*240mm)
Mechanical strength	GA374
